Bhimavaram, AndhraPradesh

OBJECTIVE

Detail-oriented and highly motivated Web Developer with expertise in the MERN stack and Python. Adept at creating dynamic and responsive web applications with a focus on user-centric UI/UX design. Strong ability to work collaboratively and contribute to team projects with a passion for innovating digital experiences. Eager to leverage internship experiences and completed courses to contribute effectively in the web development environment.

EXPERIENCE

• MSR TECH LABZ

DEC 2024 - April 2025

WEB DEVELOPER Intern (Remote)

Hyderabad, India

- Assisted in the development of web applications using the MERN stack, enhancing my proficiency in full-stack development.
- Collaborated with senior developers to implement features that improved user experience and application performance.
- Gained practical exposure to coding standards and best practices in a fast-paced environment.

• BLACK BUCKS

May2024 - July 2024

Intern

Tirupathi, India

- Contributed to front-end development projects focusing on UI/UX design principles.
- Developed dynamic web pages that aligned with client specifications and industry standards.

EDUCATION

• SAGI RAMA KRISHNAM RAJU ENGINEERING COLLEGE

Nov 2021 - May 2025

Electrical And Electronics Engineering

Bhimavaram, India

- GPA: 7.12

PROJECTS

• BILLING SYSTEM

Tech Stack: MERN Stack

- Developed a digital billing platform, streamlining invoice creation and customer tracking to enhance operational efficiency.

• JOB TRACKING APPLICATION

Tech Stack: MERN Stack

- Created a user-friendly platform for managing job applications, enabling efficient tracking and categorization of job statuses.

• Weather App: Real-Time Forecasting

Tech Stack: HTML, CSS, JavaScript, Weather API

- Developed a responsive weather application delivering real-time updates for various locations, enhancing user accessibility to critical information.

• To-Do List: Task Management App

Tech Stack: React.js, Tailwind CSS, Html JavaScript

- Developed an interactive task manager with priority-based categories, CRUD operations, reminder alerts, and efficient state handling using Zustand and Tailwind CSS.

SKILLS

- Programming Languages:** JavaScript, Python
- Frameworks & Libraries:** MERN Stack (MongoDB, Express.js, React.js, Node.js)
- UI/UX Design:** Figma, HTML5, CSS3, Tailwind CSS
- Tools:** Git, AutoCAD, VS Code
- Technologies:** API Integration, Responsive Web Design, RESTful APIs
- Version Control & Deployment:** GitHub, Vercel, Netlify
- Soft Skills:** Team Collaboration, Problem-Solving, Time Management

VOLUNTEER EXPERIENCE

- **AEE Member**

Dec 2021 - May 2023

S.R.K.R Engineering College

- Organized technical events and workshops to promote student engagement.
- Facilitated discussions and hands-on sessions on emerging technologies.
- Developed leadership and teamwork skills through event management.

CERTIFICATIONS

- **MERN Stack Development Certification**

Udemy

- **Frontend Technologies Certification**

Great learning

- **Responsive Web Design Certification**

FreeCodeCamp

- **Python Programming Certification**

Openweaver
